The customer journey

From first visit to finished outcome: what runs automatically, where AI assists, and where a person must be involved.

Automated
AI-assisted, with safeguards
Human professional
Human approval mandatory

AUTOMATED

1. Discover

Free guides, articles, videos and social content bring people to LabourSphere.

AI-ASSISTED

2. Identify the issue

The Issue Checker asks a few structured questions to understand the problem.

AI-ASSISTED

3. General guidance

Plain-language steps drawn only from the approved knowledge base.

How serious is the matter?

What sits behind the journey

Website and app
Works on phone and computer. The front door for every customer.

Knowledge base
Legislation, case law, LabourSphere methods and templates. Version-controlled.

AI assistant
Retrieves from approved sources only. Escalates when unsure.

Payments and booking
Checkout, receipts, calendar and reminders.

Document engine
Fills approved templates with customer details.

CRM and analytics
Leads, orders, follow-ups and business reporting in one place.
